

REMARKS

By this amendment, independent claims 1 and 4 have been changed to include the word "simultaneously." This should not have been necessary, however, because the function of the improvement is to know the common-mode output presented to the load, a feature which is not disclosed or suggested by the "applicant-admitted prior art."

A replacement drawing sheet is attached hereto.

Based upon the foregoing amendments and comments, Applicant believes this application is in condition for allowance. Questions regarding this application may be directed to the undersigned attorney by telephone, facsimile or electronic mail.

Respectfully submitted,

By: _____
